FROM THE EUROPEAN COMMISSION MEDIA LIBRARY:

I-053909 "Shell Eco-Marathon": meeting between Janz Potocnik and students and presentation of their "fuel efficient prototypes"

This marathon encourages students to think more deeply about the concepts of affordable and sustainable mobility, to consider how to get the best from the world's energy resources and develop innovative ideas. Three of the teams, two Belgian and one Dutch, have been in Brussels showing Janez Potocnik their cars: the team of ECAM of Brussels with a car in red aluminium and engine of combustion, the other Belgium team with a green car which uses hydrogen and a combustion battery, and the Dutch car in white which uses fuel.

Report | 17/04/2007 | REF : **I-053909** | 00:04:48:24

I-054890 Intelligent cars

Infoclip including: ITS (Intelligent Transport Systems) World Congress: exhibition of technologically advanced cars: BMW dynamic driving simulator, driving assistance at junctions. Obstacle, bends and crash detectors for Volvo cars and trucks.

Info-clip | 10/09/2007 | REF : **I-054890** | 00:04:21:17

Better and cleaner urban transport for Europe

Urban traffic is responsible for 40% of CO₂ road transport emissions. In Europe, 9 citizens out of 10 are exposed to harmful particle emissions that are higher than the tolerated norm. Time wasted in traffic jams will soon cost 1% of the European Union's GDP. In terms of urban transport, the European Union contributes to financing infrastructures and equipment, but also supports projects aiming at replacing petrol by alternative and clean fuels. Most cities in the EU are putting in place a mix of advanced technologies and transport policy measures, such as alternative traffic management systems to combine mobility and quality of life.

ON AVIATION

FROM THE EUROPEAN COMMISSION MEDIA LIBRARY:

I-053215 New airport package

The package focuses on the role of airports in the further development and competitiveness of the European internal aviation market and will mark the future of airport regulation in Europe by ensuring regulatory convergence between Member States. Stock shots of Brussels National airport (Zaventem), and Brussels South airport (Charleroi).

Europe making our skies safer

Air traffic is growing rapidly in Europe: it has more than doubled over the last 15 years. The establishment of the internal market in air transport has contributed to a large extent to speeding up this trend.

Considerable progress has been made in recent years, in particular concerning the prevention of air accidents and incidents.
