PROGRESS MADE ON EU LEGISLATION UNDER THE ROMANIAN PRESIDENCY
From 1 January to 19 March 2019

The data visualisation presents the progress made on Ordinary Legislative Procedure (OLP) files during the first 12 weeks of the Romanian Presidency of the Council of the European Union (1 January–19 March 2019). OLP, formerly known as “codecision”, is the most common EU law-making procedure, in which the Council and the European Parliament (EP) jointly adopt a proposal, usually tabled by the European Commission.

On the left are the number of files endorsed by the Permanent Representatives Committee of the Council. This committee consists of the permanent representatives of the EU member states in Brussels, or of their deputies.

At the centre, are the files on which the negotiators have reached a provisional agreement within the committee but are yet to be confirmed by the Council and the EP.

On the right, are the sectoral files related to the Multiannual Financial Framework (MFF) 2021-2027. These files can only be concluded once the horizontal MFF Regulation has been agreed, but the Council and the EP negotiators have reached a common understanding on the parts that are not to be decided horizontally.
