

Location

Lithuania offers an exceptional location for the ECCC – premises at the Vilnius TV Tower building.

There is enough office space in the building for the current needs and future expansion if needed.

The Vilnius TV Tower meets the highest physical and IT security standards.

2 months  12 months

The ECCC could start its operational activities in 2 months from the formal decision to establish its headquarters in Vilnius.

In 12-month period, the premises will be fully adapted to the ECCC needs.

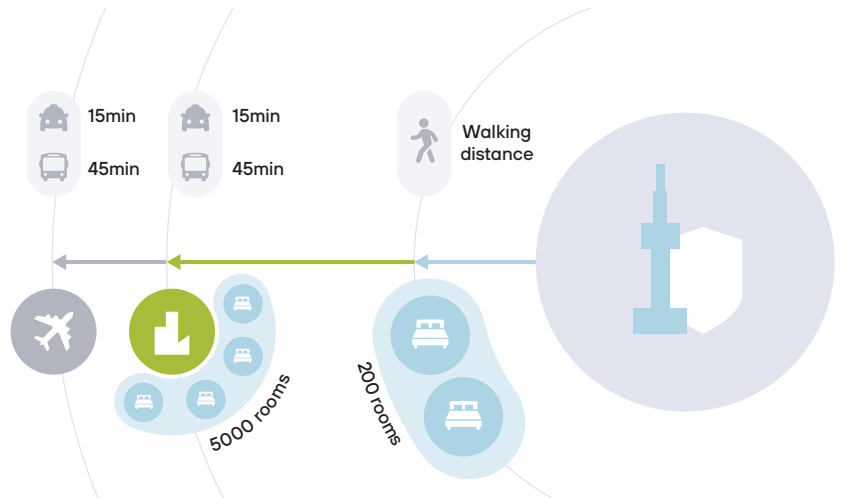

≥5 years

Lithuania will cover the rent and the maintenance costs of the ECCC premises at least for a 5-year period.

Easy to reach

Vilnius International Airport is situated just 9 kilometers from the Vilnius TV Tower (15 minutes by taxi and 45 minutes by public transport) and 7 kilometers from the city centre (15 minutes by taxi and 20 minutes by public transport).

Accommodation

There are two big hotels with more than 200 rooms within a walking distance from the Vilnius TV Tower. Plenty of accommodation opportunities (around 5000 rooms) could also be found in the centre of Vilnius.

Available communication infrastructure

The Vilnius TV Tower offers a solid, robust and resilient communication infrastructure to the ECCC. It includes:

9 fiber-optic cable entries from independent suppliers, full communication reservation

Interlink with international providers, adaptable bandwidth capacity, speed up to 50 Gbps (can be increased if needed)

Access to the TESTA network

Tailor-made internal network configuration

Data storage capacity

Reliable electricity supply (two independent inputs, first category).
