Seat of the BEREC Office to be located in Riga

In the margins of the Transport, Telecommunications and Energy Council, the Conference of the representatives of the governments of the member states today took the decision to locate the seat of the Office of BEREC (Body of European Regulators for Electronic Communications) in Riga.

With this decision, the BEREC office becomes fully operational. Its aim is to contribute to the development and better functioning of the internal market for electronic communications, ensuring a consistent application of the EU regulatory framework as laid down in the telecoms regulatory package adopted in November 2009.
